

Multi-Purpose

88

Spray Adhesive

This multi-purpose adhesive is high-solid, industrial-grade adhesive that is fast drying, is heat and water-resistant, and provides either a temporary or permanent bond. It's long-tack feature allows 30 minutes of open time so that more parts can be sprayed before assembly.

AREAS OF USE

METAL • FOIL • FELT
FIBERGLASS INSULATION • FLEXIBLE FOAM
PLASTIC FILMS • POLYSTYRENE FOAM
CARDBOARD • CORK

NOTE: This adhesive is not for use on vinyl materials or photos.
